I would like to go on the record as being opposed to the legislation (Bill 1090) that would allow the expansion of casinos or any other gambling establishments within the state of Connecticut.

I live in in the western corner of the state, right off exit 4 rte 84, and the traffic is terrible. Many commuters travel on local roads trying to bypass the congestion. The additional traffic created by a casino in Danbury would be horrible! All the idling vehicles also increase the air pollution..

Thank you.
